The Grey Nebula: War of the Way - Book 1

by **Laura Martone**

>>> [DOWNLOAD BOOK The Grey Nebula: War of the Way - Book 1](#)

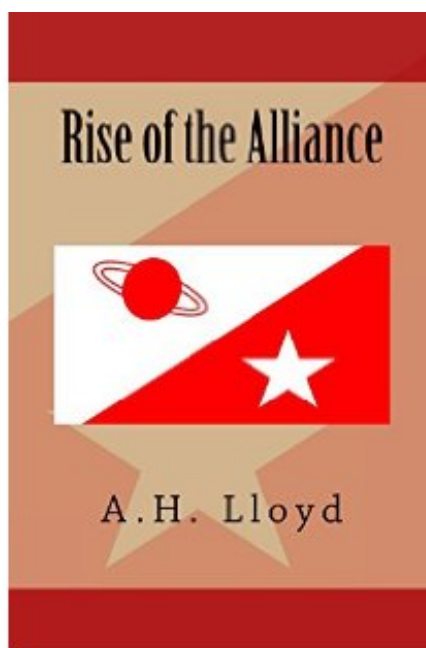

Betrayal, danger, and dumb luck... a space pirate's life for me.

Colburn Sephiran, first mate of the *Damnation*, is having a crap week. While war rages between the Ascendancy - predominant rulers of the galaxy - and the pirates of the Roverian Guild, Col's vengeful captain betrays him and swipes a diabolical weapon that could decide the balance of power. Now, Col and his ragtag crew of pirates must chase his former captain across the Way to prevent him from destroying one planet after another. But can a bunch of renegades really be the galaxy's only hope?

The Grey Nebula is the first book in the *War of the Way* series. If you like space operas in the tradition of *Firefly*, you'll enjoy following Col and his band of misfits across the galaxy.

Go Rogue and buy *The Grey Nebula* today.
